Freeholder Vicari stated that one of the most important things we do in Ocean County each year is to make sure we have the best senior services in New Jersey. Resolutions are on the agenda awarding contracts for community service providers. The Freeholder noted that many seniors in Ocean County were not born here but relocated here and make use of the County's services. Freeholder Vicari stated that the County tries to get as much information as possible to our seniors and we make sure that a resident reaches a person when they call, not a recording. The Freeholder requested Jackie Rohan, Director of Senior Services, to provide an update to the Board on the community service provider contracts.

Summary of the Pre-Board meeting of January 14, 2015

Page 2

Ms. Rohan noted that there were 33 nutrition contracts being awarded to community service providers. The Department will oversee 42 contracts with 22 governmental and nonprofit agencies in 2015 totaling over \$5.2 million. Over 228,000 meals went out in 2014; the Department of Senior Services gave 102 presentations to the public in 2014; the staff responded to over 8,000 callers and walk-ins to the office; and there were over 18,000 hits to the Department's website. Ms. Rohan also noted that over 7,000 clients contacted Senior Services regarding the Sandy Assistance Relief Program for Senior and Disabled. There are over 18,000 people over the age of 85 and 83 percent live at home; which Ms. Rohan stated was due in part to the services provided by the nutrition contracts, these allow more seniors to remain in their homes. Freeholder Vicari thanked Ms. Rohan for her update and for the work she does everyday on behalf of Ocean County seniors. The Freeholder noted that contracts will be on the Board agenda and stated that these are being put on the agenda before the budget is adopted because they are important and have a positive impact on residents. Director Bartlett stated that Ms. Rohan seamlessly has taken over the Department of Senior Services and thanked her for the good work she is doing. Freeholder Little noted that the casino revenue dollars have been declining but this Board continues to fund its programs.

Director Bartlett reviewed with the Board Item 6 on the Board agenda which authorizes the Notice of Intent to file a grant application for Community Development Block Grant Essential Services. This will be the final year the County will be eligible for the funding due to Superstorm Sandy. The Freeholder Director stated that the County received \$12 million in 2013; \$5 million was a loan, some of which may be forgivable. In 2014, the County was eligible for 75 percent of the previous year's funding and received approximately \$9 million. The Freeholder Director noted that this year the County will be applying for \$4,608,000 which is half of last year. Director Bartlett stated that the County is going forward and will introduce the budget in the coming months but it does not anticipate adoption of the budget until we see what funding the County will be eligible for and received from the Essential Services Grant which may be as late as June. Director Bartlett stated that Ocean County was one of the few counties in the State that received significant funding from this program.

Director Bartlett stated that Item 3 on the PreBoard Meeting agenda is an update on the Mathis Bridge between Toms River and Seaside and the Route 72 Bridge. Freeholder Kelly stated we had some residents at the last Board meeting requesting information about the Route 72 bridge project by the State as well as the upcoming Mathis Bridge project. The County has also had some requests from residents about the Route 35 schedule. Freeholder Kelly stated that the County has had a great relationship with the NJDOT and requested that they come to this meeting to update the Board on these concerns from residents. The Route 72 bridge has taken longer than expected, but the Freeholder noted that the County will have a great bridge when it is done.

George Kuhn from the NJDOT was in attendance and advised that the Route 37 east bound bridge project contract will start in September, 2015, and noted that once the project is started there will be one lane in (east) and two lanes off (west) the island through April.

Work on the project will begin in October, 2015. In April of 2016 the process will begin to change the bridges back to normal operation for the summer months. Mr. Kuhn noted that the project is scheduled to take three years due to maintaining summer season access and emphasized that traffic will not be disrupted during the summer months. Mr. Kuhn stated that sidewalks on the Mathis side will be removed, no pedestrians will be permitted on the Mathis Bridge; only the Tunney Bridge. The project will include reconstruction from Fischer Boulevard in Toms River and from the end of the bridge to Catalina Avenue in Seaside Heights. Mr. Kuhn advised that the total project cost is estimated at \$70 million with the low bid received at \$56 million. The project is only for the Mathis Bridge and will include 3, 10' lanes with the removal of the sidewalk on the east bound bridge and new gates on the bridge which will improve the time for the opening process. Mr. Kuhn noted that the Mathis Bridge is the third most active bridge in the State and it is 66 years old. Freeholder Vicari asked that Mr. Kuhn speak with the leaders of the communities involved. Mr. Kuhn advised Freeholder Vicari that sometime in February they will be holding a meeting with neighborhoods about the staging of the project to make them aware of what the NJDOT is doing and he has already met with Toms River, Seaside Heights and Seaside Borough about the work that will be done and the timing of the project. Freeholder Kelly stated that this project will have no impact on this summer at all.

Mr. Kuhn stated that the construction work on the Route 72 Bridge began in 2013, noting that this project is being done under six different contracts and the anticipated completion date is 2020. Freeholder Little stated that the NJDOT has done pretty well in keeping the traffic going which has been reasonably acceptable to most. Mr. Kuhn stated that part of the Route 72 improvements include road operational improvement contracts to Marsha Drive in Stafford Township and drainage and operational intersection improvements in Ship Bottom. Freeholder Kelly discussed the first traffic light off the island and Mr. Kuhn advised that the NJDOT will hold a meeting with towns to see if there are any modifications that will need to be taken into account. Work on this is expected the start in 2018.

On the Route 35 project, Freeholder Kelly stated that an issue before this Board has been from local businessmen asking about a new schedule, noting that they have not been advised of any revised schedule for the work on Route 35 on the northern island. Freeholder Kelly stated that work will not be done this summer. Scott Stevens, NJDOT, also in attendance, clarified that there is not a new schedule officially at this moment; the NJDOT is not sure of what the date will be. Mr. Stevens stated that last winter was horrendous and it pushed back the schedule. Mr. Stevens stated that it has been a great winter so far this year and the project is moving forward and they are working as hard as possible and as quickly as possible. The NJDOT is opening a new line of communication between the NJDOT and the County Engineer to alleviate concerns and that they would get regular updates to the County Engineer. Freeholder Kelly stated that the County has had a very good working relationship with the NJDOT during this project and thanked Mr. Stevens. The Freeholder stated that regular updates give the County the ability to react when residents have concerns; the more the County knows about issues the better it is for all, good communication is necessary because this is a massive project. Mr. Stevens stated that the Route 35 project has a direct impact on several communities.

Director Bartlett stated that this is a massive project; the old concrete roadway was built 88 years ago, there is no alternative to the amount of work that needs to get done; however, if you are a business and people can not get into your store, it is very frustrating. Director Bartlett stated that the County recognizes the undertaking of this project to put the roadway back together and the County is happy the NJDOT listens to our concerns, noting that this is not going to be a quick project but we are getting there. The Freeholders questioned the cost of the Route 35 project and Mr. Stevens advised that this is a \$300 million investment and when all is said and done a full road has been reconstructed the length of the island. Route 35 was a slab of concrete on sand and the new road is all new material. Freeholder Lacey stated that this does not include the pumping of sand onto the beaches for dunes. The Freeholder stated that he preferred that the NJDOT started the project when originally planned; 10 months was lost and we are paying for it now; however, the NJDOT is doing a good job with difficult circumstances. Freeholder Kelly stated that problems with the infrastructure have arisen during the project causing additional difficulties. The Freeholder thanked the NJDOT for attending the meeting and updating the Board.

Mr. Scarantino reviewed the items listed on the attached Engineering Department agenda. There were no questions or comments, and all items will be listed on the agenda for the January 21, 2015 Board meeting.

Ms. Vasil reviewed the Clerk of the Board's agenda for the Board meeting of January 21, 2015. Ms. Vasil advised that the Local Government Energy Audit application will be added to the Board agenda. There were no questions or comments.

Director Bartlett asked the Board members for comments.

Freeholder Lacey noted that the County receives approximately \$350,000 back from the recycling tax collected on every ton of material that is going into the landfill. This money funds the Household Hazardous Waste Program, composting activities and buys some equipment. The Freeholder noted that for 2014, because of Superstorm Sandy, there was an additional 35 tons collected. Ocean County received \$462,000 which was the second highest return, only Bergen County received more.

Freeholder Vicari reviewed with the Board several letters he has sent out regarding the infrastructure for electric within the County and that he agreed with Assemblyman McGuckin that JCPL should return \$1 million in excessive profits and that rate increases should be adjusted. The Freeholder noted his letter of March 4, 2013 where he made a request that there should be a three year freeze on increases for water, electric and cable. The Freeholder stated that this Board has been in the forefront in asking for improvements.

There were no additional comments.

Ms. Vasil read the resolution to move to closed session.

Freeholder Director John C. Bartlett opened the meeting at 4:30 PM and read the Statement of Compliance with the Open Public Meetings Act. The Clerk of the Board called the roll.

Freeholder Director John C. Bartlett, Jr.
Freeholder Deputy Director Gerry P. Little

Freeholder Joseph H. Vicari

Director Bartlett stated that notification was made to move today's meeting time to 4:30 PM due to the swearing in of the new Judge at the Courthouse where Governor Christie was in attendance.

Freeholder Lacey stated that Jim Pine and Tom Curcio are the ones that make everything work during storm events noting that the taxpayers expect it from the County. Freeholder Lacey stated that it is a small army of men and women that get the job done. The Freeholder noted that two days before the storm, salt was mixed with water in house and put down on County's roadways; the brine mixture has to go down on the road prior to

the event to help with safety on County roadways. The Freeholder stated that weather reports stated that a couple of feet were possible, but that did not materialize. The cost, however, is there whether it is 3 feet or 3 inches and the same actions need to be taken noted the Freeholder and the County does a great job with over 1,600 miles of roads. Wear and tear on equipment is great.

Tom Curcio was in attendance at the meeting and updated the Board on the Road Department activities, noting that the past week was a mix of a couple of storm events, starting on Friday where crews worked hard during the day which was a slushy mess and throughout the night into Saturday. Mechanics were also on hand during this time. Mr. Curcio stated that on Saturday the melted snow refroze and there was a lot of black ice; and by Sunday, crews were brining and dry salting roadways to be prepared for the Monday storm that fortunately was not as bad. Mr. Curcio advised that the County used more than 4,654 tons of salt, 2,093 gallons of calcium and 37,000 gallons of brine with a total cost of materials at approximately \$321,000.

Mr. Curcio thanked the Freeholders for purchasing some additional plow vehicles this year which led to fewer breakdowns during the snow events. This allowed the Department to take some much older vehicles off the road. Director Bartlett advised that when he was a Mayor, he would ride along with some of the plows and people do not realize the wear and tear on trucks during snow events. The Director noted that having the Vehicle Services Department there to make repairs and keep the trucks on the road is essential and the Director thanked Jim Pine, Director of Vehicle Services for his Department's hard work as well.

Mr. Pine was in attendance and advised that his Department starts in April and works all year long to always be prepared. Mr. Pine also noted that we did not receive the amount of snow that was predicted, but this was a 5 day storm event and staff was available throughout the storm. He also stated that preparation is key and having new trucks on the road helped as well as the truck washes which help maintain equipment and remove the salt and brine residue on the vehicles. Mr. Pine stated that the truck wash has paid real dividends. Mr. Pine thanked the Board for the investment in the vehicles as well as the truck washes. Mr. Curcio stated that the brine trucks are repurposed vehicles and all of the work is done in-house with very innovative welding. Freeholder Lacey advised that it was still a five day event using 12,000 gallons of fuel with parts and repairs estimated at \$30,000. Director Bartlett stated that the job had to get done and the County did get it done. The Director noted that repurposing vehicles says that the County is not just going to buy new equipment just to buy it, this is expensive equipment but if we don't have the equipment, the job doesn't get done which is the County's first responsibility.

Freeholder Vicari stated that there are 135 buildings. The County never closes. Buildings such as the jail, Sheriff, and law enforcement are open 24 / 7 and have to be kept open. The Freeholder commended Joe Meyers, Superintendent of Buildings and Grounds, for doing a great job in getting the buildings shoveled, making sure the buildings are heated and open for business. Freeholder Vicari stated that 17 tons of materials had to be spread by hand on sidewalks, parking lots, the parking garage and 28 men and women do this in-

house. They were grateful for the overtime and no one refused to work during the 5 day event. The Freeholder noted that the Superior Courts are State offices; however, they are County buildings and the County has to clear the sidewalks and make the buildings accessible. Freeholder Kelly stated that lawsuits happen, but the County does its best to get all the sidewalks and parking lots clear, and spending the money to clear these areas reduces the lawsuits. The Freeholder noted that these are B&G employees that come in during storm emergencies who put forth every effort to get the job done and the Freeholder thanked Joe Meyers and his staff for a job well done.

Administrator Block stated that the County was prepared for a large storm event as predicted, noting that it doesn't matter if it is a couple of inches predicted or 2 to 3 feet, the County is prepared and the job done. Mr. Curcio noted that the County stations equipment throughout the County in preparation for storm events. Director Bartlett thanked Tom Curcio, Jim Pine, Joe Meyers and all the County staff for their work during storm emergencies.

Mr. Scarantino reviewed the items listed on the attached Engineering Department agenda. There were no questions or comments, and all items will be listed on the agenda for the February 4, 2015 Board meeting.

Freeholder Kelly stated that every County engineering project contains a safety component to it; shoulder widening, adjustment of curbs and modifying dangerous curbs, etc. The Freeholder noted that the County provides safer roads but can not make them safe when it comes to an unsafe driver. Freeholder Kelly stated that the Engineering Department is putting together a report for the Lakewood / Jackson area of the County where some of the worst accidents have occurred. The Freeholder noted that there are over 100 miles of County roads in Jackson Township, the most in one town in Ocean County. Freeholder Kelly stated that the report will be listed on the agenda for an upcoming meeting. Director Bartlett stated that the County has been ahead of the curve in investing in County roads in Jackson Township, which has had significant growth and handles a large amount of traffic. Freeholder Kelly stated that everything the County does is to maintain a safe road system for a continually growing County; the County's makes investments for that growth year in and year out. The Freeholder also stated that all County projects have an environmental component to them as well. Environmental impacts cost dollars but the County does what it has to do. Freeholder Kelly noted that the Parkway project to put an additional lane southbound, took two years to get the permits. This is part of what makes it so expensive; there is a cost to make things safer as well as time to get a project done.

Ms. Wioland reviewed the Clerk of the Board's agenda for the Board meeting of 2015. There were no questions or comments.

Director Bartlett asked the Board members for comments.

There were no comments.

Ms. Wioland read the resolution to move to closed session.
