Second Triennium
Docket No. QO23120868

Pursuant to N.J.S.A. 48:2-2-21 and 48:2-21.1, New Jersey Natural Gas Company (the "Company" or "NJNG") hereby advises you that on December 1, 2023 the Company filed a request with the New Jersey Board of Public Utilities seeking approval of continuation of its SAVEGREEN Program as well as new Energy Efficiency, Building Decarbonization Start Up and Demand Response Programs and the associated cost recovery mechanism pursuant to the Clean Energy Act, N.J.S.A. 48:3-87.8 et. seq., and 48:3-98.1 et. seq. ("Triennium 2" or "T2"). The Company proposed to offer these programs for a period of two and a half years from January 1, 2025, to June 30, 2027, at a total cost of \$482.4 million. NJNG also requested that the Company be allowed to recover the costs of the SAVEGREEN program, including a return on and of the investments associated with the program. It is estimated that NJNG would recover a total of approximately \$414.2 million from ratepayers from 2025 through 2037.

The Company's proposal would result in an initial overall increase of \$27.30 or 1.8 percent on a 1,000-therm annual residential bill. The annual rate impact of the SAVEGREEN program for a typical residential heating customer using 1,000 therms of natural gas per year is expected to average \$44.83 per year or 3.0 percent over the 2025–2037 period and is expected to peak at \$77.80 in October 2026.

A complete copy of the Company's filing is available for review on NJNG's website at www.njng.com. Please be further advised that the Company hereby serves upon you the attached Notice of Public Hearings in the above referenced matter. The virtual public hearings are scheduled for May 16, 2024 at 4:30 P.M. and 5:30 P.M. with the following Log-In instructions.

Docket No. QO23120868

NOTICE OF FILING AND PUBLIC HEARING

TO OUR CUSTOMERS:

PLEASE TAKE NOTICE that on December 1, 2023, New Jersey Natural Gas Company (“NJNG” or “Company”) filed a petition with the New Jersey Board of Public Utilities (“Board” or “BPU”) pursuant to the Board’s Orders, In re the Implementation of P.L. 2018, c. 17 Regarding the Establishment of Energy Efficiency and Peak Demand Reduction Programs, et al; Order Directing the Utilities to Establish Energy Efficiency and Peak Demand Reduction Programs (“CEA Order”), BPU Docket Nos. QO19010040, QO19060748, and QO17091004 (June 10, 2020) and In re the Implementation of P.L. 2018, c. 17, the New Jersey Clean Energy Act of 2018, Regarding the Establishment of Energy Efficiency and Peak Demand Reduction Programs; In re the Implementation of P.L. 2018, c. 17, The New Jersey Clean Energy Act of 2018, Regarding the Second Triennium of Energy Efficiency and Peak Demand Reduction Programs; In re: Electric Public Utilities and Gas Public Utilities Offering Energy Efficiency and Conservation Programs, Investing in Class I Renewable Energy Resources and Offering Class I Renewable Energy Programs in Their Respective Service Territories on a Regulated Basis, Pursuant to N.J.S.A. 48:3-98.1 and N.J.S.A. 48:3-87.9 - Minimum Filing Requirements, BPU Docket Nos. QO19010040, QO23030150, and QO17091004, Orders dated May 24, 2023, July 26, 2023, and October 25, 2023 (“Petition”). In the Petition, NJNG sought approval to continue and expand its energy-efficiency (“EE”) programs offered through NJNG’s SAVEGREEN® (“SAVEGREEN”) Program to comply with the Clean Energy Act, and to continue cost recovery of the programs. Additionally, NJNG also sought approval to implement Building Decarbonization Start Up and Demand Response programs. The proposed programs include rebates for energy saving measures, grants, on-bill repayment opportunities, technical assistance, and other resources to encourage energy saving measures and investments in EE improvements by NJNG’s residential, commercial, and industrial customers, including low-income to moderate-income customers and multi-family properties.

NJNG also requested that the Company be allowed to continue the Board-approved EE Rider, Rider F, which has been in effect since August 1, 2009, for collection of the costs associated with these programs. Those costs include funds for customer incentives and the associated incremental program investments and expenses. NJNG also requested that the carrying costs associated with these programs be allowed. The Company proposed to offer these programs for a period of two and a half years from January 1, 2025, to June 30, 2027, at a total cost of \$482.4 million. NJNG also requested that the Company be allowed to recover the costs of the SAVEGREEN program, including a return on and of the investments associated with the program. It is estimated that NJNG would recover a total of approximately \$414.2 million from ratepayers from 2025 through 2037.

In the Petition, NJNG requested a contemporaneous change to the EE Rider F rate. The Company requested that the Board approve the implementation of an increase to the per therm after tax rate of \$0.0273, which will change the total EE Rider F rate from \$0.0494 to \$0.0767, effective January 1, 2025. The Company’s proposal would result in an initial overall increase of \$27.30 or 1.8 percent on a 1,000-therm annual residential bill. The annual rate impact of the SAVEGREEN program for a typical residential heating customer using 1,000 therms of natural gas per year is expected to average \$44.83 per year or 3.0 percent over the 2025–2037 period and is expected to peak at \$77.80 in October 2026. The estimated rate impacts to customers for 2025 through 2028 are set forth in the following chart:

NEW JERSEY NATURAL GAS COMPANY

<i><u>General Service Large (15,000 annual therms)</u></i>

Cumulative % Increase from Current Bill	2.1%	4.0%	6.0%	5.4%	4.9%

The proposed EE recovery charge mechanism would operate and be applied in a manner consistent with existing components and processes of the EE Rider applicable to all jurisdictional throughput volumes. Individual customers participating in the SAVEGREEN programs are expected to achieve annual savings on their energy bills.

Pursuant to the EE Rider, NJNG shall submit annual filings for changes to the EE rate. Additionally, the Board has the statutory authority to establish the EE rate at a level it finds just and reasonable pursuant to N.J.S.A. 48:2-21. Therefore, the Board may establish the EE charge at a level other than that proposed by NJNG which would have an impact on a customer's bill.
