NOTES: Under the "School Funding Reform Act of 2008", resident enrollment is defined as, "the number of pupils other than preschool pupils, post-graduate pupils, and post-secondary vocational pupils who, on the last school day prior to October 16 of the current school year, are residents of the district and are enrolled in: (1) the public schools of the district, excluding evening schools, (2) another school district, other than a county vocational school district in the same county on a full-time basis, or a State college demonstration school or private school to which the district of residence pays tuition, or (3) a State facility in which they are placed by the district; or are residents of the district and are: (1) receiving home instruction, or (2) in a shared-time vocational program and are regularly attending a school in the district and a county vocational school district. In addition, resident enrollment shall include the number of pupils who, on the last school day prior to October 16 of the pre-budget year, are residents of the district and in a State facility in which they were placed by the State. Pupils in a shared-time vocational program shall be counted on an equated full-time basis in accordance with procedures to be established by the commissioner. Resident enrollment shall include regardless of non-residence, the enrolled children of teaching staff members of the school district or county vocational school district who are permitted, by contract or local district policy, to enroll their children in the educational program of the school district or county vocational school district without payment of tuition. Disabled children between three and five years of age and receiving programs and services pursuant to N.J.S.18A:46-6 shall be included in the resident enrollment of the district."
