OFFICIAL GENERAL ELECTION COUNTY OF OCEAN NOVEMBER 5, 2013 NOMINATION NOMINATION NOMINATION PURPLISHED OFFICE PERSONAL OFFICE PERSONAL OFFICE OFFICE

J. Mark Mutter, Municipal Clerk Township of Toms River

Wendy L. Saxton Board Secretary Toms River Regional School District

Press the button to the right of the candidate of your choice; a green "X" will appear next to your selection. To change a selection, press the button again. The green "X" will disappear and you may make a new selection. If you wish to cast a WRITE-IN vote, go to the PERSONAL CHOICE column and press the button next to WRITE-IN across from the office you wish to write-in. A blinking green "X" will appear. Using the alphabetical keyboard

button next to WRITE-IN across from the office you wish to write-in. A blinking green "X" will appear. Using the alphabetical keyboard below, enter the name of the person of your choice, one letter at a time. To make a space between first and middle name or initial and last name use the arrow pointing to the right on the keyboard. To make a correction, use the arrow pointing to the left. The name you enter will appear in the display to the left of the keyboard. When you have entered the whole name, proof it, then press the ENTER button on the keyboard. Your choice is recorded and removed from the display. Do not press the Cast Vote Button until all other choices are complete. (Each write-in is a separate entry.)

WARNING! An improperly cast write-in vote will be deemed void. Be sure that your write-in vote is cast in the PERSONAL CHOICE column on the same line as the office for which you are casting the write-in vote.

- 4 To vote on the PUBLIC QUESTIONS press the button ____ to the right of the word "YES" or "NO"; a green "X" will appear next to your selection.
- After ALL selections have been made, press the RED CAST VOTE BUTTON located in the lower right corner. This electronically records all of your votes.
- **6** Part the curtains and exit the voting booth.

SHOULD YOU HAVE ANY QUESTIONS
REGARDING THESE INSTRUCTIONS PLEASE ASK
THE DISTRICT BOARD WORKER
BEFORE ENTERING THE VOTING BOOTH.

PUBLIC QUESTIONS TO BE VOTED UPON

STATE QUESTION NO. 1
CONSTITUTIONAL AMENDMENT TO PERMIT MONEY
FROM EXISTING GAMES OF CHANCE TO SUPPORT VETERANS' ORGANIZATIONS

Do you approve amending the Constitution to allow veterans' organizations to use money collected from existing games of chance to support their organizations?

INTERPRETIVE STATEMENT

This amendment to the Constitution would allow veterans' organizations to use the money collected from existing games of chance (such as bingo, lotto or raffles) to support their organizations. At present, the Constitution allows this money to be used only for educational, charitable, patriotic, religious or public-spirited purposes. Currently, only senior citizen groups may use the money they collect from existing games of chance to support their groups.

STATE QUESTION NO. 2						
CONSTITUTIONAL AMENDMENT TO SET A STATE MINIMUM WAGE						
WITH ANNUAL COST OF LIVING INCREASES						
vo amanding the State Constitution to set a State minimum wage re						

Do you approve amending the State Constitution to set a State minimum wage rate of at least \$8.25 per hour? The amendment also requires annual increases in that rate if there are annual increases in the cost of living.

INTERPRETIVE STATEMENT

This amendment to the State Constitution sets the State minimum wage at the level in effect under current law, or \$8.25 per hour, whichever is more. Cost of living increases would be added each year. Also, if the federal minimum wage rate is raised above the State rate, the State rate would be raised to match the federal rate. Future cost of living increases then would be added to that raised rate.

YES	YES

CAST VOTE BUTTON

Dear Registered Voter:

The New Jersey Campaign Contributions and Expenditures Reporting Act (N.J.S.A. 19:44A-37) provides that a statement, not exceeding 500 words, from each candidate for election to the office of Governor, who wishes a statement mailed on his or her behalf, shall be mailed with the sample ballots for the 2013 general election to each registered voter in this State to assist the voters in making their determination among the candidates. Attached herewith are statements from the candidates for Governor in the 2013 general election who chose to submit such statements.

New Jersey Election Law Enforcement Commission

CHRISTOPHER J. CHRISTIE

Republican

When I asked for your vote four years ago, New Jersey was broken. Our government was billions of dollars in deficit and tens of billions of dollars in debt. 115 taxes and fees were hiked over the prior eight years, making New Jersey the highest taxed state in the nation. Our citizens were so lacking in optimism that only one in four New Jerseyans thought our state—the place where they lived, were raising their children and taking care of their grandchildren—was moving in the right direction

I knew our state didn't have to continue down that path. New Jersey is where I was born and raised—I knew in my heart that our best days were not behind us, they were ahead of us. All we needed to do was look each other in the eye and tell the truth about what needed to be done. We needed to make government smaller, to lower taxes and cut spending, and to empower the private sector to grow jobs again. We needed to work to deliver a quality education to every child in our state, and we needed to break the cycle of abuse and corruption to restore faith in our government And that's exactly what we have done

In four years, we balanced four budgets without raising taxes and spend less today than Jon Corzine spent six years ago. We brought together Republicans and Democrats to enact bold reforms that many said were impossible to accomplish. We saved taxpayers \$120 billion dollars over the next 30 years by reforming our pension and health benefits system. We put a cap on property taxes that has slowed tax growth to its lowest levels in 25 years. We cut taxes on small businesses to unleash the private sector and create nearly 150,000 private sector jobs. We changed the way Tren ton operates from the outside in and have given you a government you can be proud of. We did all of this because we stood up together in a bipartisan way to put New Jerseyans first. As a result today, most New Jerseyans believe we're headed in the right direction.

I'm asking for your vote for a second term because we still have work to do to give our children and grandchildren the same, great New Jersey life we've enjoyed. The challenge ahead of us is to continue that momentum to make sure more and more people have that opportunity. We must keep up with the hard, steady work of rebuilding our state from the worst natural disaster in our history. Superstorm Sandy. And we must build on our record of reform by delivering hope for those children trapped in failing schools, continuing to control costs to drive down property taxes, and to deliver real, meaningful tax relief directly to families. Continuing to work together, we will keep improving our state, getting the big things done, and making New Jersey a place you and your children can be proud to call home

STEVEN WELZER

Green Party

The long-time dominance of the two establishment parties has left us facing an ecological crisis and an economic crisis. That certainly argues for shaking up the status quo! Our political system must be opened up to more voices and more choices. The Democrats and Republicans could use some competition! They're failing to address some of the most pressing issues of

FCOLOGY: More than superficial change is needed. We must protect the earth for future generations. Creative solutions are needed which will allow us to live well without destroying ur environment or our social cohesion. As a priority, New Jersey must re-join the Regional Greenhouse Gas Initiative (RGGI). We should han hydrofracking and prevent frack waste from being disposed of in our state. The aging Oyster Creek nuclear facility is a danger to us all and should be shut down!

FCONOMY: The unemployment rate in New Jersey is unacceptably high. The Green Party proposes creating jobs through a "Green New Deal" program. Rather than funding tax intives for large corporations, we should be funding jobs that could help us achieve a sustainable economy by focusing on areas such as renewable energy, green retrofits for residential and commercial buildings, expanded and improved mass transit, promotion of organic agriculture. Our economic well-being shouldn't be dependent upon federal or state bailouts! We could revitalize community life by having more of our tax dollars go toward supporting our local

SOCIAL JUSTICE: It's a scandal that disparities of wealth and income have become so extreme. Gov. Christie showed his priorities when he fought against the "millionaires tax" (a special surcharge on incomes above one million dollars) and then turned around and vetoed the proposed increase in the minimum wage. Enacting a more progressive income tax could enable us to lower property taxes, restore the recent education cuts, and fund state-level comprehensive Single Payer health care.

TOWARD THE GREENING OF THE GARDEN STATE: We should be developing a statewide Sustainability Plan with tangible goals and timetables. The greatest obstacle we face is how the government in Trenton responds to the needs of the big corporations rather than to well-known delines for environmental sanity or to the needs of "the 99%" (the majority of citizens).

Gubernatorial candidate Steven Welzer, of East Windsor, was a founding member of the Green Party of New Jersey, He has run for US Congress and State Assembly and has served on the Steering Committee of the Green Party of the United States. A lifelong resident of New Jersey, Steve holds a Masters degree in Economics from Rutgers University. Lt. Governor candidate Patricia Alessandrini, of Teaneck, has run for State Assembly, County Freeholder, and US Congress. Last year she received the highest vote total ever for a Green candidate running for the House of Representatives.

Green politics focuses on ecology and community. The Republicans and Democrats focus on fundraising and business-as-usual. Send a message that you'd like to see the growth of a new political alternative. Vote Green in '13!

HANK SCHROEDER

Economic Growth

My name is Hank Schroeder. It is my honor and privilege to be able to write to you and your family. There are many challenges facing our great state. The economic decline in the past years has burdened our families and communities to a breaking point that has not been seen since the great depression.

The structure of home life is threatened by part time jobs, low wages and no benefits. The foundation of families and communities are crumbling fast. We see a lost generation of 23 to 50 year olds all moving home with their parents or grandparents unable to find full time employment and basic benefits. These families find it difficult to find money for necessities such as food, medications and simple Doctor's visits once they pay their bills. This affects all from the youngest to our seniors

Very likely with these part time jobs, time off for family emergencies or medical needs will result in termination of employment. Living with constant fear of losing your only means to put food on the table and keep a roof over your head is very destructive to our families and communities throughout this great state. That is why my focus is and shall remain on one thing and one thing only, ECONOMIC GROWTH AND JOBS. Only thru Economic Growth will New Jersey families and communities be saved.

The wealthy need to be able to take risks with investments to hire the unemployed people of New Jersey. Allowing the middle class to prosper and spend to make those investments worthwhile. Offering the lowest income population the confidence that their hard work ethics will lead them to a living wage, allowing future generations to become part of the middle class. The greatest gift we can give our children is a strong work ethic.

We need to rise above the pessimism that surrounds us. I feel a great civic value in the need to make known the severity of our economic situation. There is nothing we cannot do The resources of New Jersey are great. We need a meaningfull work and family time balance We must strive towards a living wage to pay the bills with income left for tomorrow. This shall be done with lower taxes and eliminating restrictions on small mom and pop businesses. Far reaching incentives to bring trillions of dollars home to New Jersey, which U.S. corporations now have overseas. They want to come home to New Jersey!

The voters of New Jersey are hungry for a political statement so the can will stop being kicked down the road. I ask you and thank you in advance for your vote.

WILLIAM ARAUJO

Peace and Freedom

People say I am just an ordinary guy doing extraordinary things. Actually, I am a concerned citizen living in a state with a history of poor and costly decisions made by its government that we are all made to pay for, but also a state with potential.

I am not seeking a road to the White House nor seek to cut funding of the many good programs and services that when managed right, actually serve the many needing them. . Though Latino, I did not select a humanitarian for over twenty years, Maria Del Pilar Salamanca, as my Lt. Governor, focusing exclusively on having the Latino vote in the upcoming election. Being your Governor means real transparency, more accountability, and having a government that is not only efficient and effective on paper, but in actual balance sheets that disclose every single item in state budgets in one easy to navigate website. Maria and I have your interest and needs, as our first and foremost priorities.

Taxes having a 2% cap per year sounds great, but over 5 years alone, it means we pay 10% more than we did the first year of the 2% cap.

Senior Citizens more than ever see themselves returning to work after planned retirement, having difficulty with healthcare, and face abuse more than ever before. Being your Governor, I will see to it that we improve and maintain a quality of life that our seniors

Youth programs and services are vital to the future economics of our state, our com munities and our families. Investing in the most disadvantaged has made significant changes in the lives of many minority families in our state. For the State of New Jersey to have the best possible future with our youth, I seek to maximize the potential for all youth despite their household yearly income, and it includes providing student loans at a very conservative cost.

Veterans are often forgotten and we can actually do more for them and their families Having a son in the Air Force, I understand first hand what many families of Veterans go through. Veterans will be one of my top priorities as your Governor

There have been significant changes to assist businesses throughout the state, but many small business owners have not received what they need for growth. Hurricane Sandy helped many employers, but many small businesses lost inventory and for some weeks closed to their clientele. Not much was done to assist them to survive. With these businesses contributing positively to our inner cities and the communities they are in, we cannot afford

Privatization of government is not the answer for cost efficiency, a truly efficient

We all have a heart, what matters most is how we use it. On November 5, 2013 vote for the one you feel may actually have what is needed for progress. Vote for William Araujo. "United We Stand to Make New Jersey STRONGER.

KENNETH R. KAPLAN

WHAT ARE LIBERTARIANS?

Libertarians believe strongly in individual liberty. We're both socially tolerant and fiscally responsible. Individuals should have broad discretion in their personal and business lives as long as they don't attack or defraud their neighbors.

Here are some specifics:

New Jersey's broad-based taxes (property, income, and sales) are out of control. We need to move away from these broad-based taxes in favor of user fees. A user fee is simply a fee paid for a service that is actually used. Funding services in that manner will result in some services being performed by the private sector rather than by government. That will make government smaller, and enable us to cut those taxes. It will also give individuals the power to save money by not paying for services they don't want or don't need. The rate of the income tax can be stepped down in tandem with each reduction in the size of government until that tax vanishes. Then we can get to work reducing the sales tax

MARIJIJANA I FGALIZATION

This is an issue of personal freedom. Every adult should have the right to make his or her own choices as to what to ingest-be it alcohol, marijuana, nicotine, or cherry pie. Although marijuana is not yet legal for all New Jerseyans, we do have a medical marijuana law, but Governor Christie has been a roadblock to its full implementation. All 6 allowed dispensaries need to be open, and those facilities should have discretion to grow more than just 2 varieties, and be able to distribute the drug in ingestible forms

The right to keep and bear arms is just as important as freedom of the press, freedom of speech, freedom of assembly, and freedom of religion. They are all guaranteed in the Bill of Rights, and must be guarded with equal vigor

MARRIAGE FOLIALITY

This is a civil rights issue. All New Jersey couples should enjoy the same rights and the same access to federal benefits. Same sex couples should be allowed to marry in New Jer-

EDUCATION

Public education is failing in many districts, and is unfair to taxpayers who have no children or who home school or send their children to private or religious schools. Privatization of education, whereby diverse schools, supported by tuition payments instead of taxes, would compete for students, will force schools to improve their quality and efficiency or lose enrollment to those that do. Vouchers can be a useful transitional tool to give parents more

ALCOHOLIC BEVERAGES

NJ has an unfair system of allocating a limited number of liquor licenses. We should allow the free market to determine how many businesses sell package goods or serve alcohol. I have a plan that would allow that to happen, while compensating existing license owners for their license investments out of fees paid by their newly permitted competitors.

JEFFREY BOSS

NSA Did 911

I am a whistleblower on the National Security Agency. I was in a meeting in March of 2001 in DC, with a family member who was top highest clearance in the NSA. This NSA agent was helping Ramsi Yousef in March of 2001 (Ramsi Yousef was responsible for the 1993 hombing at the World Trade Center) call his uncle Khalid Sheikh Mohammed (considered the mastermind of the 911 attacks), from the NSA secret prison in Alexandria, Virginia. Ramsi Yousef was supposed to be serving a life sentence in Florence, Colorado, but the NSA had him moved to Virginia to help the NSA arrange the 911 attacks. This NSA agent was providing phone cards and other help to Ramsi Yousef to call the 911 hijackers, and help arrange the 911 attacks. This NSA agent was talking about flying 12 planes into buildings on the same day. I never heard the dates or names of the buildings. But on September 10, 2001, I was told to go to a new office in the World Trade Center on September 11, 2001. I was yelled at by 4 supervisors not to be late. I was late. It was my first day at the WTC. The NSA knew that after that I would know they arranged the attack, and the NSA wanted me dead! Since then, I have had numerous assassination attempts, including 8 car bombs. By creating a culture of fear the NSA has passed the Patriot Act. Now every phone call, e mail, TV, and computer is being used to spy on everyone. Everyone is being watched all the time by the NSA. Our Civil liberties, Constitution, and Democracy are gone. The NSA is so scared of my story, and the truth being told that tens of thousands I have campaigned to have been threatened with death if they vote for me, donate money, or tell anyone my story after they got my campaign literature. I now have over 300+ people on DVD saving they were threatened and given \$20,000 from the NSA to keep quiet. I have over 40+ affidavits from people saying the same thing. have over 20+ U.S. Army servicemen in uniform on DVD saying they were threatened with death by the NSA if they told anyone. I even have Al Gore confirming the NSA did the 911 attacks using a NSA secret code. I have been on the ballot in the past for President (2008 2012), U.S. Senate, Congress, and Governor of NJ (16,000+ votes). The NSA blocks my story from being told in the media. My telephone calls, and website are being blocked or altered by the NSA. I have filed 25 complaints at the FBI and U.S. Attorney's office with no response The NSA agents in these agencies block my complaints

Things I'll do as Governor: \$14.00 minimum wage: Legalize Marijuana: no killing at the animal shelters; Free internet college-all degrees; Meadowlands casino. I support the Unions. Vote for Jeff Boss and take back America. www.JeffbossforNJgovernor.com or www.Bossforsenate.com

DIANE W. SARE

Glass-Steagall Now

The single most important policy initiative for the future of New Jersey is the reinstatement of the original FDR-era Glass-Steagall Act. Both Governor Christie and President Barack Obama, because of their loyalty to Wall Street, oppose this crucial action

Glass-Steagall separates commercial from investment banking and would halt the bailouts of Wall Street speculators, bankrupting them, as they should have been bankrupted

Once Wall Street is out of the way (preferably behind bars), the nation can take a page from Paterson founder Alexander Hamilton, bankrupt the Federal Reserve, and return to a Constitutional national bank and credit policy, with federal credit directed toward great public works projects like NAWAPA XXI.

For the state of New Jersey, this would mean bringing our skilled work force out of retirement to train a new generation of workers who would construct long overdue storm surge barriers, as well as inland water management projects, build the ARC Tunnel, or its equivalent, and begin construction on several new fourth generation nuclear power plants to supersede Oyster Creek, which is being taken offline in 2019.

Part of the problem in finding young skilled workers today is that our nation has undergone a degeneration of culture. As a classically trained musician, I cannot emphasize enough the importance of young people learning to develop their creativity through Classical music, art and drama, as well as through replicating the scientific discoveries of the greatest geniuses known to man, several of whom (Albert Einstein, Thomas Edison, Alexander Hamilton) lived and worked in New Jersey

For this reason I strongly oppose the so-called "Common Core Curriculum" which is designed to destroy the creative powers of our youth and turn them into slave-labor, or worse, and which test scores will be used to fire our most experienced and skilled teachers to replace them with test administrators.

I have been a student and associate of Lyndon LaRouche, the most brilliant and accurate economic forecaster on the planet, for 25 years. I know what I am talking about, and I know that what I am proposing would restore prosperity and optimism to our state and our nation.

It has been 50 years since our last future-oriented leader, President John F. Kennedy was assassinated. It is now time to return our nation and the State of New Jersey to their true historical identity
