Join with others who live, vacation or make a living at the Jersey Shore to think through the lessons from Superstorm Sandy. Take part in a community dialogue about what individuals, communities and governments can do to limit the harm done by the next storm. Join your neighbors and make your voice heard.

Your input will feed into the work being done by other grantees of the New Jersey Recovery Fund, including Creative New Jersey, Sustainable Jersey and the Citizens Campaign.

This is a collaboration of WHYY/NewsWorks with the Penn Project for Civic Engagement and was made possible by generous funding from The New Jersey Recovery Fund at the Community Foundation of New Jersey.
