Currently, the concrete slabs, foundations and columns have been completed at the Northeast portion of the site. Work is progressing at the Southwestern end of the site. JCP&L relocations are scheduled to begin in the next two weeks. Steel framing fabrication is done offsite with delivery starting in April. Steel erection and construction will begin within a few weeks. All trades will begin shortly after. The baseline contracted completion date is June 26, 2026, with a final projected completion date of September 21, 2026, currently 59 days behind schedule.

Commissioner Sadeghi is concerned with the delay. Mr. Mulkeen assured the Commissioner that they are working closely with M & M Construction and Ernest Bock and Sons to bring the schedule current.

Director Kelly and Mr. Jehnke reviewed the items listed on the attached Engineering Department agenda which included the recommendation to advertise for stormwater management improvements contract 2024A in various townships. This project would replace 1700 linear feet of cured in place pipes (6 total). There were no questions or comments, and all items will be listed on the Board Agenda for the April 2, 2025 Board meeting.

Commissioner Sadeghi thanked Director Kelly for inviting Clarke, Caton and Hintz to provide the Board with an update on the Justice Complex Annex project. The Commissioner was also pleased to hear that many of the County Mayors have already met with Engineering and the Road Department and would like other County Departments to utilize this practice of reaching out to municipalities to keep lines of communication open.

There were no additional comments.
