N. FREEHOLDER COMMENTS

At 4:04 PM, Freeholder Director Vicari received the following comments from members of the Board:

DIRECTOR VICARI: "I would just like to note several items before we continue. The first one is Freeholder Bartlett and I attended a very important ceremony on the Mantoloking retention wall. We were there with Commissioner Martin and it was very impressive and we thank not only Commissioner Martin for being there, the Army Corps of Engineers with the cooperation that we have with all of the townships and it's really amazing, something that I think that you can actually put on the History Channel. The way they can do it and the engineering and we really thank the support of the State. And of course, twenty percent was paid for by the State of New Jersey. Eighty percent by the Federal Government. It really was a.....in my opinion anyway, a moral of what to do to protect the barrier island and also for the mainland. So it has a major impact which was mentioned.

I also want to mention that in this meeting we were very concerned maybe ten or twelve years ago about lyme disease and the ticks that was taking place and the detrimental effects. And, working with the Board of Health, Freeholder Little and myself, we have a public information notice and a number of doctors have called us up. One in particular that was bitten by an unusual type of a tick. It could be life-threatening if not treated. It can be with senior citizens. And it was on TV several times, but working with the Board of Health and the Agriculture Department as far as identifying the tick and with the medical community and especially the hospitals....it's called babesiosis. There are fifteen different types of ticks that exist in the northeastern United States, but it's more and more prevalent in this area. We thank the Board of Health for being involved with this. The news release will go out today and we just hope that it's picked up as far as identifying what's taking place, how to treat. But the main thing is how to prevent anyone from getting sickened. The unusual thing that I think I have never heard of a pathogen that if the woman is pregnant it can pass to her unborn child also. So again, I didn't know that much about it until recently. There is a great deal in the press release as far as what can be done to prevent it for the safety of all of our citizens. That concludes my report at this particular time. Freeholder Little."

FREEHOLDER LITTLE: Yes, Mr. Director, thank you. As has been customary, just in respect of our Veterans, the United States Defense Department has announced the identification of the remains of five of our soldiers from World War II and Korea who have been identified and are in the process of being brought home. Marine Corps PFC Randolph Allen who was killed on Tarawa in 1943 which is one of the most horrific battles of the Pacific in World War II. Army Airforce Sgt. Gerald Atkinson who was lost north of Berlin, shot down on April 10, 1945. He will be buried in Chattahoochee, Florida on August 16th. Army Airforce Sgt. Robert Howard who was 21 at the time, of Moulton, Iowa and Sgt. David Kittredge who was 22, of Wisconsin. They were shot down outside of Littenberg, Germany on April 16, 1945. Mr. Howard will be buried on July 19th in Moulton, Iowa and Mr. Kittredge at a date to be determined. And, lastly, Army Master Sgt. Lawrence Jock of the US 8th Army was lost on July 14, 1953 in North Korea and he will be buried with full military honors in New York, Malone, New York on August 1st.

And then, very briefly, Mr. Director, if the Board will recall and members of the public who may have been here, on May 7th, last May 7th, our Planning Department and the Board held our annual Public Hearing on our CDBG Funding from the Federal government. And, just as a point for the minutes and for the record, there was an individual at the time that made many allegations regarding the plan that it would not receive approval, etc. etc. It did not meet the Federal guidelines and so forth....without getting into a lot. Well, we have been notified on July 11th from the United States Department of Urban Development, better known as HUD, Housing and Urban Development, that our Action Plan has indeed been approved as we indicated that it would be. HUD has determined that all of our activities identified in the Plan are eligible and conform to Federal regulations. Our Planning Department assumed this responsibility in the early 1990's and our Action Plan has been approved every year since that time and we have the greatest confidence in our Director, Dave McKeon and our entire Planning Department staff and they will continue to cooperate with our 30-member community group that reviews these projects and makes recommendations to the Board of Freeholders. So we are delighted, again, that this plan was approved and that's just for the record. And that happens every year. Thank you Mr. Director."

DIRECTOR VICARI: "Thank you Freeholder Little. Any other comments from members of the Board before I open it up? One comment I would like to make. Before I came down, I received a call from the local news media as far as the impact of our casinos that are closing down. As you know, numerous casinos have been closing down. The numbers that we have....the impact is that there are 1,180 residents employed as of December 31, 2012 that are documented as working in Atlantic City. There a total of 2000 residents of Ocean County that work in the city itself in different areas. So the total, and again it's going to have more of an impact in Tuckerton and Little Egg Harbor and that particular area, and Stafford Township, and my suggestion is that's more of a need we have now for public transportation. A rail line that could help our residents go to north Jersey not only for visitation and to travel, but as far as an economic improvement as far as getting good paying jobs. Because most of the jobs, let's face it, are in the northern part of the State of New Jersey and the major cities. We will carefully monitor it, but it will have an impact more so in the southern part of our County.

That concludes our comments for the business portion."

- O. **PUBLIC COMMENTS** - Comments from members of the audience are invited at this time with a limit of **five (5) minutes** per speaker.

At 4:12 PM, Freeholder Director Vicari opened the meeting to receive the following comments from members of the public.

GARY BLACK, JACKSON: "I missed a couple of meetings. Doctors appointment and car trouble, but it's good to be back. Hopefully, one thing I've learned, is that it's probably easier to get armature from a generator of a 1953 Studebaker than to get a wheel bearing and a half shaft for an '04 Pontiac Grand Prix. The other thing.....I wasn't really going to comment, but I noticed what was said today about one of the many political accusations that come up here every so often. You get these people that get their 30 seconds of fame. They're in a headline saying this isn't going to work and that isn't going to work, this is wrong. All kinds of phony accusations. But it's funny when it later turns out that none of it's true and this happens time and time and time and time and time and time again and it's going to get a lot worse until the election coming up. When it turns out that everything they said was wrong you never seem to see that anywhere. I just couldn't help pointing it out that again, you guys, were right and the right thing was done again. As longstanding elected officials you've got it down and the people constantly throw mud. It's a good thing we never took any of their advice. The biggest one is on the surplus. They would say, 'Well spend down the surplus. Spend down the surplus. You're stealing the taxpayers money.' Well just think after the storm where we would be if we took that advice. There'd still be debris on the roads today. It would cost more for every road improvement. It would cost more for anything that had to be done because having the surplus is money in the bank and saves us money any time we have to take out a loan, otherwise known as bonding. But, you mentioned this one so I just figured as a reminder to anybody else out there it's just my way of saying 'so there'."

DIRECTOR VICARI: "Thank you Mr. Black. We appreciate it and you remember the days when we were criticized and it was said we should spend the surplus. But we're never commended for having a AAA bond rating. And also when we had to come up with \$100 million to clean the roadways throughout the County of Ocean, we borrowed from ourselves. We didn't go to a bank. We didn't have to pay any service charge. I don't think there was a county not only in New Jersey, but probably that was impacted in the United States, where it was so economically efficient and cost effective and still maintained a AAA bond rating at the same time or the loss the last several years of \$18 billion in ratables. But we're back on the road to recovery."

GARY BLACK: "And I've done the research, you're it."

DIRECTOR VICARI: "Thank you. Mr. Gumper please."

WILLIAM GUMPER, BERKELEY TOWNSHIP: "Good Afternoon Freeholders. First, after the meeting I'd like to speak privately with Freeholder Bartlett about something to do with attractions. I've already spoken to Freeholder Director Vicari about this before, but I think it needs more understanding, to try to get tourism dollars brought into Ocean County. As far as the jobs that Freeholder Director Vicari mentioned, I think it should be known to the public and I don't think it's well known, that both political parties, the Democrats and the Republicans, have allowed big business to export millions of American jobs to foreign countries to pay paychecks to foreigners and not to have to pay fringe benefits to them. This has happened over a period of years. I've even submitted a plan that I gave to the Freeholders on how to bring these jobs back to America because the way things are going, it's tough on the American workers. They're now on unemployment and will be on unemployment continuously for a long, long time. These jobs have to be brought back to America. I submitted a plan saying to tax businesses that produce 60% or more of their goods and services overseas. Tax them heavily and lower the taxes on companies that produce most of their goods and services in the USA and United States possessions. That's the only way to bring these jobs back. And I don't think my plan is going to go far. I'm merely talking to the Freeholders because it's very frustrating. As for events, I'll speak to John....Freeholder Bartlett after the meeting on something I've already spoken to Freeholder Vicari about events to bring tourism dollars into Ocean County."

One more thing which I direct to Freeholder Lacey who is in charge of Roads. I've noticed that many roads have holes and have elongated cracks that travel a great length. Now I used to think, well maybe it's just something I can't figure out, but I've been told by a number of people that we had the results of an earthquake. A minor result of an earthquake, about two years ago. I didn't even notice it myself. If any of you have any information I'd be very happy to hear about it. But my thought is all these elongated cracks that travel for a mile or more may have been the postponed finality of this earthquake. As you know that sink holes are in the ground, they're not discovered until some day they become big enough and they collapse and then they're discovered. But it started a while back. Now I think that some of these or I'm beginning to suspect that some of these cracks are the end result of this little shaking we had on this earthquake that was told to me by a number of people. I didn't feel it myself. I didn't even know we had it. But I had a number of people tell me about this. One person telling me could be dreaming, but not a number of people. But this is what I think these cracks in the roads are from, that they're the result of something that happened in the earth some time ago. Thank you for listening to me. Thank you gentlemen."

DIRECTOR VICARI: "Thank you Mr. Gumper, your remarks are always very welcome, but we will look into it. Any other member of the public that would like to make a comment or ask a question? Seeing no comments or questions from members of the public I will close the public portion of this meeting. Is there a motion to adjourn?"
