Definitions (NOTE- the following are not necessarily taken from existing statute or regulation, and therefore may be changed to reflect individual municipal program requirements).

Commingled- means a combining of non-putrescible source-separated recyclable materials for the purpose of recycling;

Designated recyclable materials- means those materials designated within the _____ County District Solid Waste Management Plan to be source separated for the purpose of recycling. These materials include: (list and define, as necessary, those designated recyclable materials from the county recycling plan for the residential, commercial and institutional sectors);

Electronic waste- (to be included in those instances where a recycling program has been, or will be, established for these materials. Additionally, the following definition may be changed to reflect individual municipal program requirements) shall mean a computer central processing unit and associated hardware including keyboards, modems, printers scanners and fax machines; a cathode ray tube, a cathode ray tube device, a flat panel display or similar video display device with a screen that is greater than 4 inches measured diagonally and that contains one or more circuit boards, including a television, and cell phones;

Multifamily dwelling- means any building or structure, or complex of buildings in which three or more dwelling units are owner-occupied or rented or leased, or offered for rental or lease, for residential purposes (see NJSA 13:1E-99.13a.) and shall include hotels, motels, or other guest houses serving
