Ocean County Juvenile Services

Annual PREA Data Review Meeting/Corrective Action Plan

February 3, 2026

Ocean County Juvenile Services held its annual review of the Juvenile Detention Centers PREA incident data for calendar year 2025, on February 2, 2026. Review participants included Juvenile Services Director Jon Carman and PREA Coordinator Edward Turnbach. Ocean County Juvenile Detention had no formal PREA allegations or investigations during calendar year 2025. Staffing levels for the facility met the criteria established by the Juvenile Justice Commission of the State of New Jersey and by the guidelines set forth in the Official Staffing Policy of the Ocean County Juvenile Detention Center (a copy of which can be found on this website). The Detention Center was at full staff as defined by those policies during the entirety of 2025. A review of Staffing Levels for the current calendar year determined that no changes to those levels are needed, based on the average daily population count for the facility. The upgraded CCTV System which went in to service in 2017, continues to perform in a manner which is sufficient to

protect the interests of all residents and staff members of the facility. An upgrade to the control room board, which operates the video surveillance system was completed during the summer of 2025. The on site portion of the Justice Departments triennial PREA Audit was completed during December of 2025 with a final report indicating facility-wide compliance expected in March of 2026..
