Ocean Academy intends to use the proceeds of the Bonds to purchase the facilities, which are located in both Lakewood and Toms River, as set forth in the Public Notice, to pay costs of issuing the Bonds and funding certain deposits under the applicable documents, including a debt service reserve fund. It was stated that the Bonds will be special limited obligations of the PFA, payable solely from the loan repayments to be made by Ocean Academy and revenues generated from the Project described in the referenced Legal Notice, and that none of the State of New Jersey, the County of Ocean, the PFA, or any political subdivision thereof, other than the School will be financially responsible for the repayment of the Bonds.

When it was announced that the public hearing was available to the members of the public to provide comments on the Project, no members of the public offered testimony or other comments. MEMORANDUM

To: Members of the Board of Commissioners

From: Carl W. Block, County Administrator 

Date: October 14, 2021

Subject: **Summary of Pre-Board Meeting of October 13, 2021**

Copies to: Michelle I. Gunther, Deputy Clerk of the Board
Michael J. Fiure, Assistant County Administrator
Robert Greitz, Director, Employee Relations

Director Gary Quinn opened the meeting at 4:00 PM and read the Statement of Compliance with the Open Public Meetings Act. The Clerk of the Board called the roll.

Present:

Director Gary Quinn
Commissioner Virginia E. Haines
Commissioner John P. Kelly
Deputy Director Gerry P. Little
Commissioner Joseph H. Vicari

Carl W. Block, County Administrator
Christine Allen, Recording Secretary
Michelle I. Gunther, Deputy Clerk of the Board
Robert Greitz, Director of Human Resources
Michael J. Fiure, Assistant County Administrator
John Ernst, County Engineer
Julie N. Tarrant, Comptroller/CFO
John C. Sahradnik, Jr., County Counsel

Commissioner Little shared the latest coronavirus statistics for Ocean County. There were 200 new cases, which is slightly higher than the past week. Although seven people passed away overnight, there are no documented cases of a minor passing away from the virus. The total of COVID-19 related deaths has now reached 2,152. Lakewood, Brick, and Jackson had the most cases. Of the 186 breakthrough cases, (people who were vaccinated, but still contracted COVID-19) only 5 were hospitalized, and 3 of the 5 had pre-existing conditions. One month ago 20% of all new positives were breakthrough cases, now only 14% of new cases have been previously vaccinated. Ocean County has vaccinated 113,100 residents. The County will have many sites available throughout the fall season to get both the COVID-19 vaccine as well as the flu shot.

Commissioner Haines shared the new election and early voting public service announcement that she and County Clerk Scott Colabella appeared in. It explains the process of early voting with new voting machines and e-poll books, and answers many questions voters may have regarding the new voting process mandated by the State.

Summary of the Pre-Board meeting of October 13, 2021

Page 2

Commissioner Kelly asked that we verify that none of the early voting sites conflict with any of the vaccination sites that the Health Department has reserved. Mr. Fiure will discuss with Dan Regenye.

Commissioner Kelly asked Carl Block to explain the process for keeping the voting machines secure during early voting. Mr. Block said that a Sheriff's Officer will remain on duty to guard the machines after the polls close from 8pm to 9am during the 9 days of early voting. Then on 10/31/21 after the polls close at 6pm, each machine will be transferred to the warehouse in Lakewood where they will remain secure until the polls close on Election Day when the votes will be counted.

Commissioner Haines stated that voters will still only be able to vote one time. The new machines are part of the State SVRS system, and will register an early vote, prohibiting a voter to vote again on Election Day. If a voter goes to the wrong polling place, an election worker can look up the correct one and print directions to the site.

Commissioner Vicari told the Board that two times per year in May and September all County monuments will be cleaned and maintained. The grounds in a 14x12 area around the World War I monument outside the Administration Building will be revitalized over the next few weeks.

Commissioner Vicari also told the Board that 120 Hooper Avenue will be getting a new sign, matching the one outside the Administration Building.

Director Quinn and Mr. Agliata told the Board about the new 2022 Recycling Guide, which has important information for residents regarding the new expanded recycling guidelines for Ocean County. Director Quinn commended Mr. Agliata and the Planning Department for their efforts in expanding the recycling program, which will begin to generate revenue for the County. Director Quinn also mentioned that the plastic bag ban will go into effect in May 2022.

Mr. Ernst reviewed the items listed on the attached Engineering Department agenda which included the recommendation to award the construction of a traffic signal at West County Line Road and Teaberry Court in Lakewood to JC Contracting, Inc. from Rahway, NJ in the amount of \$267,521.60. Mr. Ernst also recommended awarding the reconstruction of the South Hope Chapel Road and Ridgeway Blvd. signalized intersection in Manchester Township to JC Contracting as well, in the amount of \$269,291.74. Mr. Ernst also mentioned that the County has drafted a resolution in support of Berkeley Township's request to NJDOT to pave the Route 9 corridor as soon as possible. There were no questions or comments and all items will be listed on the Board Agenda for the October 20, 2021 Board meeting.

Ms. Gunther reviewed the Clerk of the Board's agenda for the Board meeting of October 20, 2021. There were no questions or comments.

Director Quinn asked the Board members for comments.

Commissioner Vicari mentioned he had spoken with Congressman Chris Smith regarding the Social Security Cost of Living Increase from 1.3% in 2021 to 5.9% in 2022. Commissioner Vicari sent a resolution to all municipalities in support of the increase.

There were no additional comments.

Ms. Gunther read the resolution to move to closed session.

On a motion by Commissioner Little, seconded by Commissioner Haines, the meeting moved to Closed Session at 4:44pm for personnel discussion, appointments, reappointments, property acquisition and possible litigation. The motion was unanimously carried.

The meeting returned to Open Session at 5:24pm. There being no further business, on a motion by Commissioner Haines, seconded by Commissioner Kelly, the meeting adjourned at 5:24pm.

ITEM #1 - STERTIL KONI ST1085-2FWA EBRIGHT MOBILE LIFTING SYSTEM, AS SPECIFIED, OR EQUAL

General Description:

A Stertil Koni ST1085-2FWA_Ebright, or equal, lifting system or set for vehicles shall be able to be composed of interchangeable columns. The size of the set shall be configurable by the operator at time of set up without the need to modify the operating system. (Minimum of 8 columns) When the lifts are set up as a set, it shall be possible to operate any single column, a pair of columns or all columns together, at the same time.

Each column shall contain its own power supply, which consists of two deep cycle (group 31) 12 VDC batteries combined to provide a stable 24 VDC power supply.

The main power shall be fused between the primary power switch and the motor/control circuits to protect overload.

When fully charged, the on board battery power system shall be capable of 19 lifting/lowering cycles at 100% of lifting capacity and 28 lifting/lowering cycles at 50% of lifting capacity.

The 24 VDC on board power supply shall incorporate a built in recharging system with pictograph on the display so the operator can visually verify charging the system.

The recharging system shall be built in 110 VAC battery charger with indicator lamps. The battery charger shall be enclosed within a steel cabinet for protection from damage. The charger indicator lamp shall be easily visible through a sight glass mounted externally in the control cabinet. The indicator lamp shall be illuminated steady red when the system is recharging, green when batteries are fully charged, and flashing green when the charger is providing a trickle charge. It shall be possible to operate the lifting column while the battery charger is actively charging the battery.

The base frame of the lifting column shall be of a rectangular design. The contact pattern to the foundation under the column shall be triangular in design to ensure uniform contact with the lifting foundation.

Lifting Capacity:

Each Individual column shall have a nominal rated capacity of 18,500 lbs.

Dimensions:

The achieved lifting height of the column shall be no less than 73 inches when measured from the foundation on which the column rests to the top of the lifting fork.

Column Height shall not be greater than 97 inches when full lowered and 143.5 inches when the carriage has achieved maximum height.

Column lifting fork shall be 14 inches in length.

Tire Size:

Wheel contact forks shall be adjustable by hand and freely accept tires with rim diameters between R10 and R22.5. The adjustable forks shall incorporate a mechanical locking device to ensure the fork cannot relocate/adjust during use.

☒ ☐

Pallet Jack Mechanism:

The pallet jack mechanism shall have a gas shock incorporated into its design, which shall serve as a safety mechanism to ensure that the mobile column is not lifting, while the pallet jack is extended. If the operator fails to lower the pallet jack after column positioning, as soon as the column experiences load during a lifting cycle, the gas shock will retract to lower the column to its foundation for stable lifting. The second purpose of the pallet jack gas shock shall be to dampen the impact of floor imperfections experienced while the column is relocated.

☒ ☐

Wheels:

The column shall be fitted with fixed front roller wheels fabricated from oil impregnated nylon so as to be non-destructive to the foundation on which the column rests.

☒ ☐

Floor Pressure at the front roller wheel shall be no greater than 7,200 lbs.

☒ ☐

Drive Mechanism:

The drive system shall be hydraulic and shall permit lifting without any pulsation, jerks, or unsteady lifting. Lifting shall be smooth. The hydraulic power unit shall be an electrically powered pump, flow control valves, and a fluid reservoir.

☒ ☐

Lifting carriage shall ride on durable, oil-filled nylon guide rollers. Guide rollers shall require no lubrication and no maintenance.

☒ ☐

Each hydraulic cylinder shall be equipped with a hose burst check valve to prevent descent in the event of a major fluid leak.

☒ ☐

Controls:

The various functions of the mobile lifting system shall be initiated from the control panels on the columns.

☒ ☐

Each Control box shall include:

- 1) "Up" Button
- 2) "Down" Button
- 3) "Lock Release" Button

The operator shall have the ability to easily toggle between individual imperial or metric units of height measurement. (inches or mm) The column height indicator shall also provide on the touch screen a clear indicator if the column has been set to stop at a restricted lifting height. This indicator shall be displayed as a thick horizontal line in the height display region of the touch screen. As the column rises, the screen will mimic the column and display the lifting fork rising up towards the horizontal restricted height indicator bar. Once the lifting fork shown on the display arrives at the restricted height indicator bar, the column shall stop rising.
 - Column Speed Indicator: This area of the touch screen shall inform the operator of the speed of the lifting system. The speed indicator shall have the ability to adjust the lowering to 30% of full lowering speed.
 - Column Fault Code Indicator: When a fault code has been registered by the control system, the touch screen shall inform the operator of any fault codes affecting the lifting set. The control system shall have the ability to display 42 individual fault codes.
