COVER STORY: SUMMER BOAT TOURS

A spectacular way to enjoy the beautiful waters of Ocean County is by boat. The Ocean County Department of Parks and Recreation provides a variety of boat tours and cruises from mid-June through August. Whether this is your first trip or you are returning with family and friends, the Ocean County Parks Bay Cruiser II tours are truly a local gem.

One of the best ways to witness a Barnegat Bay sunset is aboard the Bay Cruiser II during a Barnegat Bay Twilight Tour. Enjoy a relaxing hour-and-a-half cruise around the shoreline of Cattus Island County Park, viewing evening wildlife and learning about the salt marsh ecosystem, conservation, and history. Watch for osprey returning to their nests to feed their young or fish jumping in the breakers. On your return to the dock, enjoy all the splendid colors of a local sunset.

Barnegat Bay supports one of the largest and most diverse breeding colonies of birds in the state. Early Bird Ornithology Tours take you up close to tidal marshlands where breeding egrets, herons, gulls, and terns nest. This two-hour tour takes you along Cattus Island County Park marshland as well as marshes across Barnegat Bay. Bring your own binoculars or borrow a pair of ours; the guide will show you how exciting it can be to “bird” in Ocean County.

The Metedeconk River Cruise leaves from Trader’s Cove Marina in Bricktown and travels past the Forsythe Wildlife Refuge and Herring Island on the way to the mouth of the mighty Metedeconk River. It is the second-largest river to feed the Barnegat Bay Estuary and flows through the densest development in Ocean County. This hour-and-a-half cruise is rich in cultural and natural history.

The most popular tours are the Barnegat Bay Lunch and Dinner Cruises. Grab some friends or family and hop on board for a cool and relaxing trip to lunch or dinner. You will arrive in style at local restaurants such as Water Street, MJ’s Restaurant, Xina Chinese Bistro, and Beacon 70. Sit back with your loved ones and enjoy the sights along Barnegat Bay as we head to our dining locale. You will be given time to dine and then meet back on the Bay Cruiser II for the return trip to the dock. Participants are responsible for paying for their lunch/dinner and gratuity.

Most tours leave from the boat dock at the Ocean County Parks and Recreation Administration Building at 1198 Bandon Rd, Toms River, unless noted for Trader’s Cove Marina in Brick. The Bay Cruiser II is a pontoon/catamaran-style boat holding 23 people aged 4 and up, plus a licensed captain and a mate/tour guide. Pre-registration is required for all tours at a fee of \$14.00 per person.

The Natural Lands Trust Fund Program

Good Luck Point

The Good Luck Point project area is a target acquisition area for the County of Ocean, with a collective of over 20 preserved properties totaling approximately 724 acres in Berkeley Township. The County continues its effort to preserve this environmentally sensitive area. Throughout various properties in the area, the Ocean County Natural Lands Trust Fund has received funding from Blue Acres to assist with the purchasing of these properties. Notably, the Trust for Public Lands has helped to preserve nearly 210 acres of land.

Preserving this land goes further than just the ecological functions. By preserving it we also allow the marshes to do their main job to absorb possible flooding and storm surges, protecting the communities around it. The plant roots also help prevent further erosion by stabilizing sediment along the shore.

This property is located along the Atlantic Flyway, which is crucial for migratory birds. This makes this property amazing for our local bird enthusiasts. Some of the birds that can be seen here are Ospreys, Peregrine Falcons, Egrets, and Sandpipers. The surrounding waters around Good Luck Point are part of the Barnegat Bay Estuary. This is significant because this brackish water is a crucial support for many ecosystems. Species that call this home are DiamondBack Terrapins, Blue Crabs, and countless fish. Many species use this area as a nursery for their young to grow before they migrate back into the deeper ocean.

Cattus Island Living Shoreline/Marsh Restoration Project

Cattus Island is the most significant salt marsh and the largest breakwater in the northern portion of Barnegat Bay. The overall goal of this project is to restore critical shoreline areas of Cattus Island County Park to address significant erosion and prevent extreme wetlands and habitat loss in the Barnegat Bay. Some areas of the park have lost more than 300 feet over the past 85 years. This erosion is likely to increase over time, if the shoreline, and especially the northeast peninsula known as "Page's Point," is not stabilized. This Power-Point presentation is an overview of the changes along the shoreline and the plans for restoration.

Must be able to walk on uneven ground, climb over downed trees and be able to descend and ascend muddy, slippery stream banks.
