

Laurelton Art Society

The mission of the Laurelton Art Society is to foster an understanding and appreciation of the visual arts throughout the communities in and around Ocean County. The Laurelton Art Society is committed to our community by supporting, educating and exhibiting visual media to promote the importance of Art in Life and Culture Today.

"Put art in your life. You will be richer for it!"

The Laurelton Art Society grew out of the interests of a small group of artists dedicated to providing a means for those who share an interest in art - to meet, share ideas and promote public interest in the visual arts. We welcome the "art appreciator" as well. Now in its thirty-third year, the Laurelton Art Society is proud of its growth. We continue to provide quality cultural programs for the public including demonstrations and workshops. Each year, we grant scholarships to local high school students pursuing studies in art.

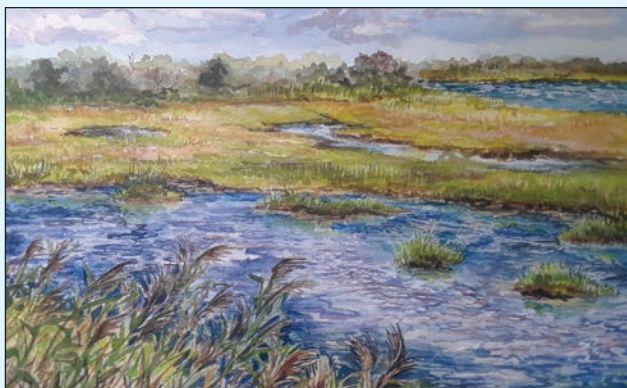

In addition to the monthly meetings and demonstrations, the Laurelton Art Society sponsors a series of special programs and events including an annual "Festival in Art", a multi-media exhibit. Ribbons are awarded for excellence in oil painting, acrylics, watercolor, mixed-media and photography.
