Ocean County Juvenile Services

Annual PREA Data Review Meeting/Corrective Action Plan

January 24, 2023

Ocean County Juvenile Services held its annual review of the Juvenile Detention Centers PREA incident data for calendar year 2022, on January 24, 2023. Review participants included Juvenile Services Director Jon Carman and PREA Coordinator Edward Turnbach. Ocean County Juvenile Detention had 1 formal PREA allegation and investigation during calendar year 2022. The determination of the Staff on Resident allegation was deemed to be unfounded. Staffing levels for the facility met the criteria established by the Juvenile Justice Commission of the State of New Jersey and by the guidelines set forth in the Official Staffing Policy of the Ocean County Juvenile Detention Center (a copy of which can be found on this website). The Detention Center was at full staff as defined by those policies during the entirety of 2022. A review of Staffing Levels for the current calendar year determined that no changes to those levels are needed; based on the average daily population count for the facility. The upgraded CCTV System which went in to service in 2017, continues to perform in a manner which is sufficient to

protect the interests of all residents and staff members of the facility. An upgrade to the control room board, which operates the video surveillance system, is budgeted for installation in 2023. The on-site portion of the Justice Departments triennial PREA Audit was completed during December of 2022.
