# The Barnegat Branch Trail - Moving Forward

by Donna Flynn - Ocean County Public Information Director

Cover Photo (bottom L) Ocean County Commissioner Virginia E. Haines, (right), Liaison to the Ocean County Parks & Recreation Department discusses future plans of the trail.

Winding its way north from Barnegat Township, Ocean County's 15.6 mile linear park – the Barnegat Branch Trail – is one of the largest and most-visited parks within the Ocean County Department of Parks and Recreation.

With just over 12 miles of trail completed, it provides an important connection between the communities along the Route 9 corridor in the heart of Ocean County.

"This park is unique to Ocean County and features areas that residents and visitors may not have been able to experience since they are deep in our natural woods," said Ocean County Commissioner Virginia E. Haines, chairwoman of Parks and Recreation for the County. "Each time we add to it, the park also grows in popularity."

The newest phase of trail construction is nearly completed in Berkeley Township. This phase extends north from Hickory Lane and will connect to the existing Beachwood Municipal Trail at Railroad Avenue. The new 1.5 mile section will be one of the most scenic areas of the trail as it passes along the forest and lakes of the former New Jersey Pulverizing property preserved by the Ocean County Natural Lands Trust Fund Program in 2016. Visitors will be sure to spot a variety of wildlife including turtles, deer, osprey and bald eagles. This section will also provide a continuous connection from Route 166 in Beachwood to South Street in Lacey Township. Completion is anticipated by fall of 2024.

The Barnegat Branch trail follows the existing right of way of the former Barnegat Branch Division of the Central Railroad of New Jersey. The Ocean County Board of Commissioners has been advancing construction of different areas of the trail with the first areas completed in the southern part of the County. Once completed, the trail will span more than 15 miles from Barnegat Township to Toms River Township.

So far, Ocean County has completed seven phases of the trail, which includes over 7.8 contiguous miles from Burr Street in Barnegat Township to Musket Road in Lacey Township. In addition, almost 3.25 miles from South Street in Lacey Township to Hickory Lane in Berkeley Township have been completed.

"The Barnegat Branch Trail is very popular with the residents and visitors of Ocean County not only by giving residents a route to travel by bike or walking, but also allowing access to many of our County Parks along the way," Haines said.

This linear "rail-to-trail" serves as both a recreational destination for walkers, runners and bicyclist as well as a safe transportation route connecting residential areas to many adjacent parks and businesses through Barnegat, Ocean, Lacey and Berkeley townships. The trail's wide, firm and flat trail surface caters to people of all ages and abilities. Parking and restroom facilities are located all along the trail, allowing for short and long trips. The trail is also dog friendly for your leashed companions.

"The Barnegat Branch trail is readily accessible to the more than 150,000 residents of its host municipalities and is within a short drive of Ocean County's population of more than 650,000," Haines said. "As the county's population continues to grow, the Barnegat Branch Trail plays an increasingly vital role in meeting recreational objectives."

As part of the trail's ongoing upkeep and maintenance program, Ocean County is putting the finishing touches on the renovation of 2-miles of trail from Barnegat Boulevard in Barnegat Township to Memorial Drive in Ocean Township. The work included resurfacing of the trail and parking areas as well as new fencing, trail signage, bike racks, and picnic tables. Additional improvements to the trail will take place in the winter months beginning at Volunteer Way in Ocean Township and heading north into Lacey Township.

Ocean County is also preparing to begin construction of the next phase of the Barnegat Branch Trail from the Beachwood Municipal Trail at Admiral Avenue to Herflicker Boulevard in South Toms River. This section of trail will include a new pedestrian bridge over the Jakes Branch of the Toms River, and will continue Ocean County's plans to complete a linear connection from Toms River to Barnegat.

"Even though parts of the trail are still being constructed, residents and visitors are all enjoying the over 12 miles of completed trail," Haines noted. "This started as a vision by former Ocean County Freeholders Jim Lacey and the late John Bartlett and what an outstanding addition to our park system it has turned out to be."

# Your Ocean County Lands Trust Property

## Florence T. Allen II Ext. Property

The Florence T. Allen Ext. II Property is 26.67 acres located in Berkeley Township, New Jersey. Located directly off of Route 9, this property was formerly known as the popular amusement park called 'Blackbeard's Cave'. When you approach the property, you will first notice the grassy area where the old driving range used to be. As you move towards the back of the property, you will notice the property turns into densely mixed forest with a trail that leads directly through our Northeast Mall Donation property. From there, you would be able to access Ocean County's Barnegat Branch Trail as well as the 800+ acre NJ Pulverizing property. The once known amusement park has since been demolished and no structures remain on the property.

Now, the property connects to the Ocean County's Natural Lands Trust's various properties located in Berkeley Township, connecting multiple preserves together to make it a nice opportunity for residents to utilize the properties for walks and runs throughout the preserves.

## Cattus Island Living Shoreline Restoration Project

Cattus Island is the most significant salt marsh and the largest breakwater in the northern portion of Barnegat Bay. The overall goal of this project is to restore critical shoreline areas of Cattus Island County Park to address significant erosion and prevent extreme wetlands and habitat loss in the Barnegat Bay. Some areas of the park have lost more than 300 feet over the past 85 years. This erosion is likely to increase over time, if the shoreline, and especially the northeast peninsula known as "Page's Point," is not stabilized. This power point presentation is an overview of the changes along the shoreline and the plans for restoration.

## Recreation Program Policy and Information

1. Recreation personnel in charge of each program will have the final decision in all matters, especially where participant safety is concerned.
2. Due to the strenuous nature of some of our activities, recreation personnel reserve the right to deny a participant entry into a program. If the participant has already paid a fee, this fee will be reimbursed in accordance with our refund/credit policy.
3. Alcoholic beverages are strictly prohibited on all recreational programs.
4. All participants and their guardians must realize there may be some unavoidable hazards involved in all recreation programs. At the start of the program you will be asked to sign a Waiver of Liability Form, which is mandatory in order to attend the program and must be signed.
5. It is the participant's or guardian's responsibility to inform staff members of any medical problems that may inhibit your participation in a program. Please consult your doctor if you are not sure.
6. Please be advised that all return times are approximate. The actual times depends on the ability of the participants, prevailing weather, field conditions, and unforeseen circumstances.
7. All children under 18 years of age must be accompanied by an adult, except programs specifically designed for young children.
8. Age range for programs have been designated according to program content and will be strictly adhered to.

To protect yourself from Lyme Disease, we recommend participants spray clothing with insect repellent which contains DEET, wear light color clothes, tuck pants into your boots or socks, always change clothes as soon as you return home and check yourself over closely for ticks.
